

Sprint Plan 1:

User Stories:

1. As a user, I would want to be able to create/enter a room, which other users can also enter using a code. (13)

Tasks:

- Creating a home page, where users create a username.
 - Create a Hello page, where users have an option to create or join a room.
 - Create a Join room page, where users inputs code to enter a room.
 - Create a room where map will be in and options for users.
 - Setting up Firebase for room implementation.
2. I want to be able to see my location on a map. (8)

Tasks:

- Map rendering
- Displaying midpoint between multiple locations

Other tasks and front-end:

- Created wireframe for the project (1)
- Created home page and other various pages(3)
- Connect pages together (3)
- Created heroku server (3)
- Creating backend using Node.js (3)
