

#### User Stories:

1. As a user, I want the room information of the room I'm in to be synced with all the users that are in the same room. (I should be able to see people's location, and know if a user left by seeing their marker disappear, as well as their name disappear on the sidebar) (13)
2. As a user, I want to see places that I can go to pop up on the map within a certain radius of the midpoint that I set with a slider. (13)
  - a. Implement categories for the yelp call
  - b. Deal with inconsistencies in the yelp call .
3. As a user, I want to be able to create a room and share a roomCode to let other users join the room. I should also be able to leave the room. (5)
