Sprint 2 Report: Rendezvous

Team Members: Claudio Sangeroki, Ulysses Uribe, Jeshwanth Bheemanpally, Navika Gupta, Adarsh Sekar

Actions to start doing:
- Increase productivity and contact with each other.
- Divide big tasks into smaller tasks to have clear expectations on how many story points a given task is going to take and if it should be carried over to a different sprint.

Actions to keep doing:
- Regular meetings and additional meetings if required by other team members to support implementation of features.
- The team should keep dividing up tasks into smaller ones that aren't dependent on each other.

Actions to stop doing:
- Not prioritizing work
- Dividing tasks that makes everyone too dependent on each other.

Work Completed/not completed:
- As a user, I would want to be able to create/enter a room, which other users can also enter using a code. (13)
  Tasks:
    - Create a swipe up panel for room page - complete
    - Connect the Join room to the room page - not complete
    - Create sliders for users to adjust distance - complete
    - Set up room implementation in flutter with firebase - complete
    - Display yelp results on slideup panel - not complete - not complete
    - Set up drawer in room to hold user info and settings - complete

- I would like a list of possible locations to be displayed based on the locations of the people. (13)
    - Interface with the Yelp API
    - Connect with backend - complete
    - Add search bar to search for yelp categories - complete
- Connected maps with firebase, so that users can see other users locations in the room, and the midpoint of those locations.

Work Completion rate: 65%
